

EXAMINER'S AMENDMENT

Terminal Disclaimer

1. The terminal disclaimer filed on 11/03/09 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 7510477 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:
- Claims 65 and 68 are allowable over the prior art of Gouschy, as Gouschy uses the accelerometer as a light gun (thus it determines the location on the screen that the gun is pointing, and allows for the player to shoot in that direction), however the current invention claims tilting the control unit to allow the player look in that particular direction.
2. Applicant has filed a terminal disclaimer that overcomes any obviousness type double patenting over patent #7510477.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
